REMARKS: SOVA has sanitized the attached transcript of the briefing on Soviet succession given to the SSCI on Sep 28, 1982. Today, Monday, Robert Simmons, the majority staff director is coming to HQS to meet DDO/EURA Station Chiefs at 12:30. According to Simmons, Sen. Goldwater is planning to give kudos to CIA for its preliminary analysis of the Soviet succession in a cover letter to his fellow senators that will accompany the unclassified findings of the SSCI's open and closed hearings on the issue. Do you or Bob Gates have any interest in meeting Simmons today while he is out here, if it can be arranged?
